

**Editorial Corner****Applications of Hybrid Composites in Railway***Vinod Kushvaha, Sanjay Mavinkere Rangappa and Suchart Siengchin***Review Articles****A Comprehensive Review on Metal Matrix Composites for Railway Applications***Mohit Hemanth Kumar, Sanjay Mavinkere Rangappa and Suchart Siengchin***A Comprehensive Review on Noise Reducing Materials for Habitable Spaces***Sunita Doddamani, Bhavna Shrivastava and Nand Kumar***A Perspective on the Potential Material Candidate for Railway Sector Applications: PVA Based Functionalized Graphene Reinforced Composite***Akarsh Verma***A Review of Natural Fibers Reinforced Composites for Railroad Applications***Milena Chanes de Souza, Ivan Moroz, Ivana Cesarino, Alcides Lopes Leão, Mohammad Jawaaid and Otávio Augusto Tilton Dias***Application of Bumpers in Different Types of Railway Vehicles: A Short Review***Hamza El Etri, Mehmet Erdi Korkmaz and Munish Kumar Gupta***Hybrid Composites for Railway and Transportation Uses – A Review***Ibrahim Can Kaymaz, Alperen Dogru and Mehmet Ozgur Seydibeyoglu***Prospective of Magnesium and Alloy-based Composites for Lightweight Railway Rolling Stocks***Paul Thomas, Chin Wei Lai and Mohd Rafie Johan***Role of Polymer Composites in Railway Sector: An Overview***Praveenkumara Jagadeesh, Madhu Puttegowda, Sanjay Mavinkere Rangappa and Suchart Siengchin***Research Articles****Handgrip Automotive Prototype of Polypropylene Reinforced Benzoyl Treated Kenaf and Sugar Palm Fibers: A Facile Flexural Strength and Hardness Studies***Mohd Izwan Shahrudin, Mohd Sapuan Salit, Mohd Zuhri Mohamed Yusoff and Mohamed Abdul Rahman***Optimization of a Filament Wound Hybrid Metal Composite Railway Axle Design Concept***Guido Carra, Davide Formaggioni, Michael Sylvester Johnson, Preetum Jayantilal Mistry, Andrea Bernasconi and Stefano Bruni*

## “Hybrid Composites for Railway Applications”

**Paper Citation is as Followed:** Applied Science and Engineering Progress  
**E-ISSN: 2673-0421**

#### **Schedule**

no. 1 January–March  
no. 3 July–September

no. 2 April–June  
no. 4 October–December

#### **Editorial Policy**

Paper, comprising review and report of original scientific research, will be judged for publication on the basis of evaluation by independent reviewers. Such reports and articles include those containing substantial supported theories, innovative work, substantial experimental results, useful and constructive discussion, and review articles standardized to regional or international acceptance. Each volume will comprise four issues. In addition, special issue containing the proceedings of conferences may be produced. These will be designated as supplements to the appropriate volume and number. An electronic journal is also provided on the website (<http://www.asep.kmutnb.ac.th>). The editors reserve the right to require revision of the submitted manuscript as a condition for final acceptance.

The university and the editorial board claim no responsibility for the contents or views expressed by the authors of individual articles. Copying allowed freely provided acknowledgement is made thereof. All articles submitted for publication will be assessed by a group of distinguished reviewers.

#### **Focus and Scope**

**Applied Science and Engineering Progress** (ISSN: 2672-9156, E-ISSN: 2673-0421) is an international, double-blind peer-reviewed by at least two independent reviewers, open access scientific journal, free of charge, published by King Mongkut's University of Technology North Bangkok (KMUTNB) since 2008. Applied Science and Engineering Progress published original research articles, reviews, and editorial corner in areas of applied science and engineering. The journal also publishes high quality and peer-reviewed papers presented at conference hosted/co-hosted by KMUTNB to expand the research connection between scientists and engineers. Applied Science and Engineering Progress also aims to introduce research progress of applied science and achievements of engineering development to the world community by demonstrating the significance of research investigations and demonstrations. Accepted manuscript to Applied Science and Engineering Progress will be published every quarter in PDF formats (March, June, September, and December).

Applied Science and Engineering Progress consists of two major sections in Applied Science and Engineering field:

**Applied Science** - This section contains topics in the multidisciplinary domain of applied science and technology on solving technical problems and developing the application of academic research. The focus of this section target to disseminate the progress of the analysis of problem, finding solution and synthesis of knowledge in the fields such as bioprocess technology, chemistry, information technology, and other topics related to applied science.

**Engineering** - This section contains topics in the combination of engineering, invention and innovation and focuses on solving technical problem. The targets of this section includes research works in applications of engineering and technology such as electrical and electronics, industrial production, mechanical engineering, and other topics related to engineering.
